INTRODUCTION.

NLM

WE take pleasure in submitting our SPRING LIST OF PRICES. It is somewhat later than usual, on account of the incorporation of our Druggists' Sundries pamphlet.

DRUGS.—The first fifty-nine pages are printed somewhat in the form of a price-book, so that changes in prices, which we shall endeavor to furnish from time to time, or other memoranda may be inserted on a line with each article. Having facilities for executing Spanish orders, we invite correspondence from dealers in Central and South America and West Indies. Drugs and Pharmaceutical Preparations will be labeled in Spanish, and orders forwarded through commission merchants in our city. Spanish prices currents of our preparations will be furnished on application.

CHEMICALS AND PHARMACALS.—We are constantly enlarging our lines of Chemical and Pharmaceutical Preparations, and invite attention to their reliability. Our manufacture of Sulphate of Morphine, Sulphate of Quinine, Bi-Sulphate of Quinine, Sulphate of Cinchonidine, and other Cinchona Alkaloids, has been successful, both as regards purity and appearance. Our FLUID EXTRACTS are universally liked by Druggists and Physicians, and no pains or care will be spared to merit the approbation they have received. Our GELATINE-COATED PILLS are now extensively introduced, and fully deserve the encomiums pronounced upon them; the list has been largely increased. See pages 72 to 80.

We would remark that *several imitations* of our Pills are offered in market, and we caution the trade, when ordering from other wholesale houses, to SPECIFY MCK. & R.

The value in and reputation of Gelatine-Coated Pills have been created by our manufacture and advertisement, and these well known facts should be respected by the trade and profession.

DRUGGISTS' SUNDRIES, SPONGES, &C.—We trust that our Illustrated Catalogue itself will plead our excuses for the delay in its publication. For description and method of obtaining same, see introduction of pamphlet, page 203.

TERMS.—Prices will be subject to future market variations, and all quotations are *net*, except where discounts are specified. ASSORTED INVOICES will be sold payable within 30 days, in New York, or interest will be charged at six per cent. per annum, after 30 days, and draft made payable at 60 days from date of shipment, unless otherwise arranged. A discount of one per cent. for cash, will be allowed whenever remittance accompanies order. SPECIAL ORDERS for goods, not embraced in our usual catalogue, as also articles, which are marked *cash*, will be filled at manufacturers' prices for cash only, payable on receipt of invoice.

PACKING BOXES AND CARTAGE FREE.—The practice of discriminating, in this respect, in favor of certain customers, which has become more or less general in the trade, is not according to good principles, and we propose to make no charge for packing boxes and cartage, FOR ASSORTED GOODS, to customers sending orders, at the same time our prices will always be as low as quantities ordered and quality will allow. This will not apply to 25 and 50 lb. packages, for which it is the custom of the trade to charge, patent cans and cases, kegs and half barrels, barrels for Chalk, Whiting, cases and barrels for Glassware, when such charges are made by manufacturers, &c., nor to orders sold through Brokers.

In conclusion, we beg to say we have been as definite as possible in describing the varieties of particular articles, as also the forms in which the same are usually sold, to prevent misunderstanding in regard to quality or prices; and we shall be happy to furnish goods (of strictly reliable character, put up with promptness in the best style of execution), in *any quantities desired*, on such terms as will merit a continued patronage.

CORRESPONDENTS MAY RELY UPON THE PROMPT EXECUTION OF THEIR ORDERS FOR GOODS IN QUANTITY, AS WELL AS RARE ARTICLES, PERTAINING TO EVERY BRANCH OF THE BUSINESS, AS IT IS WELL KNOWN THAT WE CARRY IN STOCK THE LARGEST AND MOST COMPLETE ASSORTMENT IN THE TRADE.

We remain, soliciting your orders for goods, or for quotations for specified quantities, which will receive careful and prompt attention, with all the advantages which the quantity ordered and the market will permit,

Very respectfully yours,

McKESSON & ROBBINS.

McKESSON & ROBBINS,

Manufacturing Chemists.

We are now manufacturing Quinine and Cinchonidia extensively, and can offer the following salts of assured purity and excellence.

We have been much gratified by the complimentary reports, regarding the appearance and quality of our Cinchona Alkaloids, received from both druggists and physicians.

It has been stated by some unscrupulous competitors in the drug trade that we do not manufacture Quinine; such statements it seems almost unnecessary for us to deny, as the proofs of our manufacturing are so certain and easy, and the animus of such houses is so apparent.

McK. & R. Sulphate of Quinine.

WHITE IN COLOR! BEAUTIFUL IN CRYSTALLIZATION!

NINE-OUNCE BOTTLE REQUIRED TO HOLD ONE OUNCE.

The following test is attached to the label of every ounce of Sulphate of Quinine issued by us, and comparison of our Quinine may be made with any other brand in the market:

To test the purity of SULPHATE OF QUININE put one gramme of the Quinine into a tube with six grammes of Concentrated Sulphuric Ether, and two grammes Liq. Ammon., when the Quinine, if pure, will be entirely dissolved

McK. & R. BI-SULPHATE OF QUININE.

Peculiarly fine crystals; should be prescribed in pills and powders in preference to the Sulphate, on account of its ready solubility, requiring only 10 parts of water instead of 740. Specify McK. & R.

Our prices of BI-SULPHATE QUININE PILLS are about 10% LOWER THAN SULPHATE.

McK. & R. SULPHATE OF MORPHINE,

In 1-8 and 1 oz. Vials.

We have for some years past imported and bottled a well-known brand of English Morphine, labeling the same ENGLISH, but have lately succeeded in manufacturing a much lighter and whiter article ourselves, which we offer with great confidence to the trade, guaranteeing quality and appearance.

McK. & R. SULPHATE OF CINCHONIDINE.

White Color! Definite Crystals!

SEVEN-OUNCE BOTTLE REQUIRED TO HOLD ONE OUNCE.

IN ORDERING OF OTHER WHOLESALE HOUSES

Specify McK. & R.'s Morphine, Quinine, Bi-Sulphate of Quinine, Cinchonidine, Etc.

MEDICINAL AND TECHNICAL DRUGS,
CHEMICAL AND PHARMACEUTICAL PREPARATIONS.

This book, being intended for a commercial list of prices of goods, in regular and occasional demand, is compiled and arranged with this view. It is not deemed advisable to encumber it with articles seldom enquired for, but we will always be happy to furnish any crude obtainable, or manufacture any pharmaceutical or chemical preparation, which cannot be supplied from our stock or in our market.

We give special attention to supplying new stocks. Our large and complete assortment enables us to fill such orders entire, and give satisfaction in price and quality.

 Please note that there are two indexes—one for Drugs, &c., page 143, and one for Druggists' Sundries, &c., page 457.

These Juices are pronounced superior to anything of the kind ever offered in market, retaining the flavor of the fruit, and free from any danger of fermentation; they are manufactured in our laboratory, and we can guarantee that no Ethers, nor any injurious substances whatever, enter into their composition. The operation of preparing the Syrups for Soda Water consists merely in the admixture of one part of the Juice to seven parts of Simple Syrup, no addition of Citric Acid nor coloring matter being necessary.

OILS, ESSENTIAL, Note:—We would call special attention to our essential oils, which are selected and tested with the greatest care, the finest qualities of both medicinal and technical oils being offered in the following list. Our extended connections, both in home and foreign markets, give us unusual facilities in selection of qualities and in prices, the advantages of which we can offer to our customers. Whether Castor, Cod Liver, or Croton Oils are required for Medicine; Lemon, Peppermint, or Wintergreen, for Flavoring Extracts; Bergamot, Neroli, or Rose for Perfumery: it should be regarded as an axiom—"the best is always the cheapest."

McKESSON & ROBBINS' QUININE PILLS.

Our Sulphate of Quinine mass, very thoroughly mixed (the Quinine being invariably subjected to the Ether test, and the amount of water it contains ascertained), represents two-thirds of its weight of Sulphate of Quinine; and 10 two grain pills, cut by our machines, weigh 20 grains. Each batch is kept separate, and the number of pills obtained, compared with the Quinine, comes out within less than one per cent. of the correct amount. No heat is employed; no sub-coating whatever is used. A monthly account is also kept of the number of ounces of Quinine used in the Pill Laboratory, and the number of grains represented in the formulas of Quinine and Quinine Compound Pills made during each month; the variation never exceeds one per cent. (Our Bi-Sulphate Quinine Pills, of course, contain two grains Bi-Sulphate, not Sulphate). Thus we have two checks going to prove the synthetical correctness of our manufacture.

Again, it is the rule for our chemist, the first of each month, to take some of each size Quinine Pills, just before they go to our coating room, and carefully analyze them; the result has been that at no time have we had a greater discrepancy than 1 1-2 per cent.—the usual analysis of two grain pills giving over 198 grains to the 100 pills.

A recent analysis of seven brands of Quinine Pills, purporting to have been made by an analytical chemist (name not given) and published in a Philadelphia journal, has received a wide circulation—many times greater than the regular paid subscription of the paper. It is of course needless to say that the correctness of this analysis is denied. The question of bias and honesty of the analyst or editor will not be touched upon, although the identification of the pills out of the bottles is very easy—as, one was compressed; one was ovoid gelatin-coated, one, round, with compound gum and gelatine coating; one, oviform sugar; and three, round sugar. The manufacturer of the latter three, on account of similar appearance, would be more difficult of recognition.

What the chemist claims is not impurity nor substitution, but that **HE FOUND** insufficiency of quantity (in the case of our pills, 12 per cent.), which can readily be accounted for by his failure in getting ALL the Quinine out of the 20 pills examined, as he acknowledges that he stopped his process after potassium-mercuric iodide failed to give a reaction in the AQUEOUS liquor; and it is well known that this test becomes inoperative in an ammoniacal solution, the precipitate being soluble therein, and even if acidified the test is absolutely worthless in the presence of gelatin.

Another error is evident in his analysis of pills No. 1, in the use of the formula for the Sulphate of Quinine instead of Bi-Sulphate Quinine, which error, whether it occurred in copy or proof reading, shows carelessness (seemingly a characteristic of the entire article), which, as may well be surmised, would as likely happen in not getting all the Quinine out of a gelatinous liquor or in delicate weighing or putting down and calculating weights. Positive analysis is very difficult, and the best expert chemists are the last to place their names to an unqualified analysis, even after repeating and checking off each step several times; while the difficulty, which the average chemist, not specially acquainted with Quinology, would have in entirely abstracting 40 grains of Sulphate of Quinine which he had himself dissolved in conjunction with gelatin, would prove the difficulty of shaking out all the Quinine from excipient and troublesome gelatin or other pill coating.

His calculations are based on 7 molecules, or 14.45 per cent. of water, whereas the U. S. Ph. allows and commercial Sulphate of Quinine often contains 8 molecules, or 16.18 per cent.

We submit that publishing such incomplete and erroneous analyses by irresponsible persons, for purposes either good or bad, is reprehensible, and should be discredited. The chemist does not sign his name and the editors of the journal have refused to divulge it. We have not remarked upon the other analyses, which, with the exception of two, vary from 5 per cent. to 20 per cent. short weight, but will say that most of them differ from analyses of the

same brands made by ourselves both before and after this analysis was made. We have always found that our own pills required much longer agitation with ether to fully extract the Quinine than any other which we have analyzed, on account of our coating, which is the only one consisting of pure gelatin.

We present the following analyses of our coated pills, taken from original bottles.

The first analysis was made several years ago by DR. CHAS. RICE. We requested him to make another at the present time, but he was obliged to decline on account of his official position.

NEW YORK, April 17th, 1878.

"Messrs. McKESSON & ROBBINS:

GENTLEMEN—Having been requested by you to make an assay of the alkaloids contained in your Gelatine-Coated Quinine Pills, I purchased an original vial, containing 100 2 grain pills, in the store of Theodore Cole, 403 First Avenue, New York. Each ten of these pills weighed very nearly 34 grains, and the weight of the single pills is very uniform, varying but slightly either way from 3.4 grains. The whole number of pills (100), yielded 148.385 grains of anhydrous alkaloid, which was found to be pure **White Quinia**, free from other cinchona alkaloids. This amount of dry Quinia corresponds to 202.4 grains of Sulphate of Quinine, containing 8 molecules of water of crystallization $2(C_{20}H_{24}N_2O_2)_2 \cdot 8H_2O$; or to 201.7 grains of Sulphate of Quinine, containing 7 1-2 molecules of water of crystallization $2(C_{20}H_{24}N_2O_2)_2 \cdot 7\frac{1}{2}H_2O$, which latter is, as near as possible, the formula of the commercial pure Sulphate of Quinia. The amount of Sulphate of Quinia contained in the 100 pills examined is therefore a trifle in excess of the required quantity (3.8 grains, or 1.7 grain, according to whatever formula may be adopted for the crystallized salt).

Respectfully,

CHARLES RICE,
Chemist, Bellevue Hospital, N. Y."

NEW YORK, December 19th, 1882.

"An analysis of 20 McKESSON & ROBBINS' 2 grain Sulphate of Quinine Pills made by me this morning gave 1.916 grammes of dry Quinine Alkaloid. Each pill, therefore, contained 1.99 or 2.03 grains of Sulphate of Quinine, according to the water of crystallization allowed.

ED. POLENSKE, Ph. D."

NEW YORK, December 19th, 1882.

"I have to-day analyzed McKESSON & ROBBINS' 2 grain Sulphate of Quinine Pills, from an original bottle taken from stock, which were made the first week in November. The Alkaloid from 20 pills, dried at 130° C., until weight was constant, was 1,908 grammes, equal to 1.93 grains of Sulphate in each pill, allowing 7 molecules of water, or 2.03 grains, allowing 8 molecules.

HENRY MACLAGAN."

NEW YORK, December 21st, 1882.

"I have to-day analyzed McKESSON & ROBBINS' 5 grain Gelatine-Coated Sulphate of Quinine Pills from a package purchased from a retail pharmacist in New York City. The number on the package showed that they were made about the middle of October. From 10 pills 2.475 grammes of dry Alkaloid were obtained, equal to 5.03 grains of Sulphate in each pill, allowing 7 molecules of water, or 5.13 grains, allowing 8 molecules. HENRY MACLAGAN."

We confidently believe that no druggist nor physician will suppose for a moment that we would hazard our reputation by purposely omitting any portion of the proper ingredients of any preparation bearing our name; and would respectfully ask the thousands of physicians throughout the country who have for years prescribed, are now prescribing and will continue to prescribe, McK. & R. Sulphate and Bi-Sulphate Quinine and other Pills with good results, to judge in this matter, or let any competent chemist analyze our pills in the presence of our own chemist, so that, as in every court of justice, the defendant may be represented.

Very respectfully,

McKESSON & ROBBINS.

CAUTION.—Other pills than ours are sometimes dispensed by druggists from our bottles, as McK. & R. pills, a practice which is certainly reprehensible, and, as we are advised, actionable.

Private Formulas of 3000 pills or over, made and coated to order.

McKESSON & ROBBINS'

Chemical and Pharmaceutical

During the past year, our sales in this department have been largely in excess of any previous year, and our facilities for the manufacture of chemical and pharmaceutical preparations have been again increased.

We are now supplying Preparations according to U. S. Ph., 1880, and, as the strength of many articles differs from the old pharmacopœia, PLEASE SPECIFY IN ORDERING WHETHER "1870" OR "1880" IS DESIRED. Unless otherwise mentioned, the preparations quoted in this list, as official, are of the U. S. Pharmacopœia of 1880.

Our manufacture of Quinine and other Cinchona Alkaloids is now an assured success. The purity, whiteness and lightness of crystallization of McK. & R. Quinine and Cinchonidine are unequalled by any other brand. We have added to this department the manufacture of Sulphate of Morphine (very light and white), Cit. Iron and Quinine, U. S., Cit. Iron and Quinine, soluble, Cit. Iron, Ammoniated, and other scale preparations.

We were awarded the highest medals, both at the Vienna and our Centennial Expositions, for excellence of our Preparations, including Gelatine-Coated Pills, Fluid Extracts, Syrups, &c., and we take pride in calling attention to the rapid strides we have taken in this department, and ask the continued patronage of those, who, by experience, can attest their superiority, while we request trial orders from all with whom quality is the main desideratum. We received a medal at Paris, in 1878, for crude indigenous drugs and essential oils, which comprised our whole exhibit. We were, also, awarded the first medal at Sidney, Australia, for fine Chemicals, which embraced our Quinine, Cinchonidine, &c.

Regarding the cause of dissatisfaction with many of the Fluid Extracts and Pills offered in the market, to be due to careless selection of the crude drug, careless manipulation in manufacture, the want of practical knowledge of Pharmacy, and a strong desire to realize excessive profits on sales, we give this department our personal attention, and carefully superintend every detail.

The * is used to designate new or important preparations.

ABSTRACTS—U. S. P., 1880.

Each grain of the powder represents two grains of the crude drug. Keep in well corked bottles in a cool place.

DYE COLORS, FUELLING'S STAR, FOR FAMILY USE.

Doz. \$1 65.....Gross, \$18 00.....5 gross, \$85 00.

Having become proprietors of these superior Aniline Dye Colors, we now offer them to the trade as being the most efficient Dyes in use. The fewer number of Colors, from which, however, all shades may be obtained, and the facility with which they can be used, make them the most desirable Dye Colors to have in stock.

LIST OF COLORS.

EXTRACTS, FLUID, McKESSON & ROBBINS'.

(DISCOUNT, LIBERAL.)

These Extracts are prepared by cold re-percolation, thereby avoiding the effect of heat and exposure to the air, which impair those active principles in which the virtues of all vegetable remedies consist. By experience we have determined the greater efficacy of different menstrua in the exhaustion of the virtues of different drugs; in some, glycerin being a valuable adjunct to the alcohol—in others, objectionable. Each drug is carefully studied by itself, and great care is taken that each lot of the same extract should be uniform with the preceding, the specific gravity, where the same menstrum is used, being a test. The process that we employ has been endorsed by the leading Pharmaceutical journals, and by our best chemists, and every thinking Pharmacist will readily acknowledge the danger of applying heat to medicinal drugs. Formulas for making Syrups, Tinctures, &c., from our Fluid Extracts, are printed on the labels.

Each Pint of our Extracts represents one pound of the raw material, and the dose can be regulated accordingly. The only exceptions are Fluid Extract of Opium, one pint of which is equivalent to 1½ ozs. of Gum Opium, Fluid Extract of Vanilla and Fluid Extract of Rhubarb Aromatic, which are twenty-five per cent., and Fluid Extract of Tolu and Fluid Extract of Benzoin, which are half strength, on account of density. Put up in 1 lb., ½ lb. and 4 oz. bottles.

We desire to call special attention to our Fluid Extracts of Ipecac. Squill. Scull Comp., Sarsaparilla Comp., &c., for Syrups: which make clear Syrups by simple admixture, no filtration being necessary. In this connection, we would caution our friends to use care in purchasing unknown brands of Fluid Extracts, many now offered in market being merely Tinctures.

Our Extracts are sent in 1 lb. bottles, unless specially ordered otherwise.

**PILLS, GELATINE-COATED, McKESSON & ROBBINS'.
VOID IN SHAPE—CONTINUOUS IN COATING.**

(PROCESS AND MACHINERY PATENTED.)

IMPORTANT FACTS.

Every Physician will recognize the importance of knowing the character of the house manufacturing Pharmaceutical Preparations which he prescribes, and every druggist should be as scrupulous in filling prescriptions.

The reputation we have secured for our Gelatine-Coated Pills, has induced others to put upon the market inferior preparations, to obtain the advantages of our efforts, and we can only say that, we intend to protect ourselves and the Public as far as possible. At the same time, we respectfully ask both Physicians and Druggists to specify "McKesson & Robbins' Pills," in ordering, that there may be no disappointment in results, caused by the substitution of other pills claiming similar merits.

SPECIAL NOTICE.—(Our attention has been called to the fact that machines for coating pills with gelatine, which we consider infringements on our machinery, have been offered to the trade. We desire to CAUTION ALL PERSONS against PURCHASING, SELLING, or USING the same, as we intend to bring suit against all infringers.)

Referring to our suits against A. F. W. Neymaber and others, for infringement on our patent for Gelatine-Coating, we take pleasure in stating that Judge Blatchford has decided these cases in our favor.

The value in and reputation of Gelatine-Coated Pills have been created by our manufacture and advertisement, and these well known facts should be respected by the trade.

1st.—Our Pills are *reliable*, being made strictly in accordance with formulas, and of the best materials.

2d.—They are soluble; the gelatine, being speedily converted into jelly, the contents of the Pill are left free to act. TO TEST THE SOLUBILITY OF THE COATING, PLACE A PILL IN THE MOUTH AND NOTE THE RAPID DISSOLUTION OF THE GELATINE. A SINGLE TRIAL OF A DOSE OF COMPOUND CATHARTIC PILLS WILL ATTEST THEIR SOLUBILITY AND EFFICACY.

3d.—They are very easy to take: patients, who have found it almost impossible to swallow a plain or sugar-coated pill, are surprised at the readiness with which the McK. & R. Capsuled Pill "goes down," on account of the ovoid shape and the nature of the coating.

4th.—Our Pills are ovoid and, unlike others, necessarily soft, when coated. *Our process is the only one in which the mass can be coated when soft*, in fact, the pills must be soft in order to be coated by our machinery, and the COATING COMPLETELY COVERS THE PILL WITH GELATINE.

ACONITINE (<i>Baughnes's Crystl.</i>) 1-100, 1-200 gr. Dr. E. C. Seguin ("Archives Medicine, June, 1889,") says: Aconitine has been used by many physicians in numerous cases of trigeminal neuralgia, with very favorable results. A large proportion of cases have been cured, and some very ancient cases (8 to 12 years) greatly relieved by the medicine. It is well to give debilitated, susceptible, and female patients 1-200 or 1-700 grain to begin with.				60	2 80	ALOES AND MYRRH, B. Our sales have been very large indeed, and the remedy appears to be growing in favor with the Profession. Dose, in certain cases 10 grain may be given every hour, or 1-4 to 1 grain twice a day. Dr. Simon Snell, in the "Practitioner" for January, 1-89, gives a record of several cases of strumous ophthalmia treated with Sulphide Calcium, which recovered very rapidly under its use. He gives 1-16 to 1-8 grain three times a day. These cases are given in N. Y. MEDICAL ABSTRACT, p. 74, 1892.</p>

CANNABIS INDICA EXTRACT... 1-4 & 1-2 gr.

CANNABIS INDICA EXTRACT.....1 gr.

This Important Extract is manufactured in our own Laboratory. Special care is used in the selection of the drug to insure the uniform strength, and the pills, when cut, exhibit, in a marked manner, the distinctive color, taste and odor of the freshly made extract. We copy from the U. S. Disp. the following: "In morbid states of the system, it (Ext. Cannab. Indic.) has been found to cause sleep, to allay spasms, to compose nervous inquietude and to relieve pain; it differs from opium, in not diminishing the appetite, checking the secretions, or constipating the bowels. The complaints in which it has been specially recommended are neuralgia, gout, rheumatism, tetanus, convulsions, hysteria, mental depression, and delirium tremens." Dose 1-4 to 1-2 gr., repeated in three or four hours and increased if necessary.

CATHARTIC COMP. (U. S. Formula).....1-2 gr.

The extract of colocynth, from pulp, and extract jalap are made in our own laboratory. One of these pills will be generally found to act as a laxative, and two or three with certainty as a cathartic. May be employed in most instances where a brisk cathartic is required; but is particularly applicable to the early stages of bilious fevers, to hepatitis, jaundice and all those derangements of the alimentary canal, or of the general health, which depend on congestion of the portal circle.

McKesson & Robbins' Solid Extract, made from fresh leaves, is used in these pills. As the leaves become almost inert with age, a preparation of this nature is necessary to enable the Physician to judge correctly of the value of this remedy. Coca Erythroxylon is a South American plant, used by the natives as a substitute for tea, coffee, tobacco, hashish and opium of other countries. It imparts vigor to the muscles as well as to the intellect, and enables the partaker to endure great fatigue with ease. Has been strongly recommended as a corrective of the opium habit. Dose, 5 to 30 grs.

ERGOTIN (Each pill — 50 grs. Ergot). 5 grs.	2 40	11 80
We manufacture our Ergotin with great care from the best quality of fresh, selected Ergot, and it contains in the most potent form all the active constituents of Ergot of Rye, each grain representing 10 grs. Ergot, and each 3 gr. pill being equal to half a teaspoonful of official fluid extract. The value of Ergotin, in the place of the crude drug and the Fluid Preparations, is conceded; and it is being largely administered both in this country and in Europe. It has taken a prominent place in the treatment of Neurotic diseases. Many of our most reliable practitioners, and particularly those of extended experience in gynecology, assert that they have never found a preparation of Ergot, in which, by experience, they felt as much confidence as in McKesson & Robbins' Ergotin Pills. The advantages of prescribing it in this form are obvious. (Dose, 2 to 10 grs.)		
WE OFFER OUR ERGOTIN, PREPARED SPECIALLY FOR HYPOKINEMIC USE, IN ONE OUNCER BOTTLES, SPECIFY M.K. & R.'s FOR HYPOKINEMIC USE, AS WE ALSO MANUFACTURE AN ERGOTIN AFTER BONJEAN'S FORMULA.

Where a continued treatment with Ergot is necessary, the addition of Cannabis Indica is frequently preferred, and many physicians, who have employed this combination for sleepless cases of mania, hemiancra, and congestive nervous conditions that follow uterine disorders of women, give the quality of the Extracts a very satisfactory mention. Dose, 1 to 3.		
EUCALYPTUS EXTRACT. 2 grs.	75	3 55

GUARANA EXTRACT (PAULLINIA) 8 grs. This Solid Extract is manufactured in our laboratory, and is eight times the average strength of the drug. We offer these Gelatine-Coated Pills with confidence in their being the only accurate mode of preparing this widely used and much appreciated remedy, as the drug varies so much in strength; some preparations in the market have been found to consist largely of impurities. We carefully test each shipment we receive, and our Solid Extract is of superior and uniform quality. The value of Guarana, in many phases of sick, nervous and sun Headache, as well as in Neuralgia, and in irritations of the mucous membrane, has become well known to practitioners, and its happy effects, in Diarrhea, Dysentery and kindred diseases, have been attested in numerous cases. IRON BY HYDROGEN (QUEVENNE'S) 1 gr.	40	1 80
IRON BY HYDROGEN (QUEVENNE'S) 2 4 grs. The black, reduced iron generally found in market is not fully deoxidized; its properties appear to be those of an astringent rather than tonic, and it does not take the place of Quevenne's iron or the true Ferrum reductum of the U. S. Pharm., which is of an iron gray color. (See U. S. Disp., 1877, pp. 416 & 12 6.) We import Randsjæden's iron, which is used in these pills; the color may be seen upon cutting one of them open. Tonic and peculiarly well fitted to improve the quality of the blood when impoverished from any cause. Useful in diseases characterized by debility. Usually employed in chronic anemia or chlorosis, hysteria, scrofula, passive hemorrhages, neuralgia, and dyspepsia when dependent on deficient energy of the digestive function. Contra indicated in all inflammatory diseases. Dose, 3 to 6 grains three or more times a day, but administered just before or after eating.	60	2 80

The Proto-iodide Mercury used in our granules is freshly made in our own laboratory, and is guaranteed to be reliable. Our immense de- mand proves that the profession have found them as represented. We have added the 1 centigram size, as we have received many in- quiries for it, being of identical size with the sugar-coated pills of foreign manufacture. (Scrofula and scrofulous syphilis). Should never be given at the same time with Iodide Potassium, which converts it into Bin-Iodide. The dose recommended in the U. S. Disp. is 1 gr. gradually increased to 3 or 4 grs., while in the Natl. Disp. the dose given is from 3-4 to 1 gr.; even the latter dose was criticised in the Medical Record, 1879, and both Dr. Piffard and the late Prof. Bumstead agree that one- half grain should never be exceeded.

The Phosphorus in our pills is always presented in the free state, and perfectly sub-divided, thus insuring safety and absence of any cause of irritation to the stomach. Dose, from 1-100 to 1-30 gr. twice or three times a day. Many of the Phosphorus combinations given here are formulas used by Dr. Kirby, of the Royal College of Surgeons, England, and

PHOSPHORUS AND STRYCHNINE		1 00	4 80	PIROTOXIN		60	2 80
{ Phosphorus, 1-50 gr. Strychnina, 1-60 gr. }				A prominent physician, in referring to this remedy, says that his success with Picrotoxin in the treatment of night-sweating in Phthisis has been decidedly superior to any attained by the use of the mineral acids, belladonna and ergot, singly or combined. He writes: "I have not employed this drug in the night-sweats of phthisis solely. I recall a case of chronic pleurisy in which the effusion having been absorbed, convalescence was unaccountably retarded and prostration was so extreme that a latent, incipient phthisis was suspected. The skin was bathed in perspiration during the greater portion of the twenty-four hours, and this being the only discoverable morbid condition, I resolved to treat it with picrotoxin. It was promptly checked, and convalescence set in immediately. I have employed the drug in nearly one hundred cases. My custom has been to give a pill containing gr. 1-80 at bedtime, which dose may be repeated once or twice during the day in obstinate cases; and, at my suggestion, the firm of McKesson & Robbins, of New York, have added such a pill to their list."

BI-SULPHATE OF QUININE IS MUCH MORE SOLUBLE THAN THE SULPHATE, THE LATTER REQUIRING SEVEN HUNDRED PARTS OF WATER TO DISSOLVE IT, WHILE THE BI-SULPHATE DISSOLVES IN TEN PARTS. IN ORDERING, WE WOULD ADVISE PHYSICIANS TO SPECIFY BI-SULPHATE. McK. & R.'s BI-SULPHATE OF QUININE PILLS ARE MORE SOLUBLE AND MORE ASSIMILABLE THAN SULPHATE OF QUININE TAKEN IN POWDER.		

The demand has largely increased, and experience has justified our former claim that on account of PROMPT ACTION AND PERFECT SOLUBILITY, Bi-Sulphate of Quinine, although containing less of the Quinine Alkaloid, is more EFFICACIOUS, dose for dose, than Sulphate of Quinine.

Sulphate of Quinine is probably prescribed by physicians oftener than any other chemical, and it has been our study to present this valuable remedy in pill form of the most reliable and soluble condition. The difficulties we have met in our experiments with the mass, have arisen from the insolubility of quinine itself, as it requires over 100 parts of water to dissolve one part of Quinine Sulphate. In our own manufacture of bleached Sulphate of Quinine, we have learned much concerning the nature of this salt, have discovered that the form and character of the crystals should be carefully considered in making the pill mass, so as to avoid certain chemical changes which seem to render the mass hard and objectionable, and have lately adopted an excellent, which we think is the best adapted to the character of Sulphate of Quinine, and will assist rather than retard its solubility, and remain soft for a long period. In regard to the coating of McKesson & Robbins' pills, no improvement can be devised, no case having ever been known by us where our pills have been administered, in which the coating was undissolved. Every practitioner is aware that, in some conditions of the stomach, sulphate of quinine should only be administered in solution, but when in any food will be assimilated, our pills can be safely advised. Our Bi-Sulphate of Quinine pills may always be prescribed when prompt and decisive action is necessary. See note under Quinine, Bi-Sulphate.

Salicin is becoming more and more favorably known in the treatment of Rheumatic affections, also as a Tonic, Astringent, and Anti-Periodic, and is best exhibited in our Gelatine-Coated Pills. Salicin has been found very efficacious, and, according to "The Lancet," not less certain in acute Rheumatism than Quinine is for Ague. In large doses, it has been claimed to be an absolute specific in Cornitis (suppurative).

VERATRINE1-32 gr.	60	2 80
ZINC, OXIDE1-2 gr.	45	2 05
Tonic, anti-spasmodic and astringent. Has been given in chorea, epilepsy, whooping-cough, spasm of the stomach dependent on dyspepsia, and other similar affections, and the diarrhoea of infants.		
ZINC, PHOSPHIDE1-6 and 1-4 gr.	60	2 80
ZINC, PHOSPHIDE1-2 gr.	80	3 80
The Phosphide of Zinc has been very successfully used by prominent authorities on treatment of brain diseases, many of whom assert its efficacy. It has been used with remarkable results in severe cases of Neuralgia, [see paper by Dr. Adolphus, St. L. Med-Jour., XlII, 471] P. Vigier, <i>Bull. Gen. de Therap.</i> , states that Phosphide of Zinc is more prompt and reliable in its action than free Phosphorus.		
ZINC, PHOSPHIDE, & EXT. NUX VOMICA	80	3 80
{ Zinc Phosphidum, 1-10 gr. }		
{ Ext. Nucis Vomice, 1-4 gr. }		
Tonic. Useful in palsy, neuralgia and chronic constipation; also in brain diseases.		
ZINC, VALERIANATE1 gr.	75	3 55
ZINC, VALERIANATE2 grs.	1 00	4 80
Anti-spasmodic. Considered a remedy in neuralgic affections. Has been used with success in nervous diseases attended with palpitation of the heart, constriction of the throat and pain in the head. Useful in epilepsy, and in the nervous affections which accompany chlorosis. Dose, 1 to 2 pills, several times a day.		

Private Formulas of 3,000, or more, Made and Coated to Order.

Pills may be sent by mail in boxes, at an expense of about 2 cents per 100, and 10 cents per package, extra, if registered.

WE DESIRE TO CALL SPECIAL ATTENTION TO THE FOLLOWING:

ABSTRACTS, U. S. P., page 61.

According to the U. S. P. of 1880. Each grain represents two grains of the crude drug.

BLUE PILL, U. S. P., page 62.

Prepared by succussion, according to the U. S. Pharmacopœia.

BEEF, WINE and IRON, page 85.

Prepared from the best materials, and warranted to keep.

CHLOROFORM, PURIFIED, page 62.

Prepared according to the U. S. P. 1880.

COD LIVER OIL, "Maltese Cross," page 105.

Pure Norwegian Cod Liver Oil, of our own importation.

COD LIVER OIL EMULSIONS, page 62.

Carefully prepared from the finest Norwegian Cod Liver Oil.

ERGOTIN FOR HYPODERMIC USE, page 64.

Very reliable, and perfectly soluble in water.

FLUID EXTRACTS, pages 65 to 69.

Prepared in the most careful manner from selected crudes.

FRUIT JUICES, page 70.

Prepared directly from the fruit. Are guaranteed pure, and will make fine syrups.

PEPSIN, Concentrated and Saccharated, page 71.

Very carefully prepared, and of full Pharmacopœial strength.

SOLID EXTRACTS, page 70.

Prepared from selected crudes, and of guaranteed purity and strength.

SOLID EXTRACTS, Powdered, page 69.

Each grain represents one grain of the solid extract.

McK. & R. POWDERED DRUGS.

It seems highly proper to place a list of some of the most important powdered drugs in our catalogue of pharmaceutical preparations, because the selection and garbling of the crude drug and its reduction to a powdered form make a *preparation* of the powder, and as such it should carry the label of the producer as a guarantee of its purity, the same as a bottle of Quinine or Fluid Extract. The extra cost of 25 cents for 1 lb. bottles has been objectionable, and we have recently adopted 1 lb. square tins as containers, and prices quoted below, which will be subject to market changes, include the cans, the increased cost for which is trifling. These cans are very slightly and make neat and attractive shelf packages.

Powdered Cinchona Barks and Powdered Opium will be labeled with their respective assays, and upon the labels of Powdered Ergot and Powdered Narcotic Leaves will be stated the year that the crudes were gathered.

Other powders than those here quoted will be furnished, of guaranteed purity, upon application. Our desire is to have the trade order the following powders in 1 lb. cans only, and on that account we have merely added the increased cost, figured down to the lowest basis.

McKESSON & ROBBINS' FLUID EXTRACTS.

FLUID EXTRACT AVA, [Kava Kava].

A bitter tonic, asserted to be a remedy for gonorrhœa.

FLUID EXTRACT BAELE FRUIT.

Astringent. "Useful in diarrhœa, dysentery, with debility of the mucous membrane, and other diseases of the bowels with relaxation, which it relieves without inducing constipation."

FLUID EXTRACT BERBERIS AQUIFOLIUM.

Thought to possess tonic and alterative properties; also has been recommended for scrofulous and syphilitic diseases; see page 65.

FLUID EXTRACT BLACK HAW, bark of root.

Reputed efficacious in preventing miscarriage, whether habitual, or threatened as the result of accident.

FLUID EXTRACT BOLDO.

"A tonic, especially in cases where there existed chronic hepatic torpor."

FLUID EXTRACT CASCARA SAGRADA.

Of value in bilious affections. Pills of 2 grains Solid Extract; see page 74.

FLUID EXTRACT COCA.

We have Gelatine-Coated Pills of the Solid Extract, 1, 2, and 3 grs.; see note, page 74.

FLUID EXTRACT COTO BARK.

Asserted to be of value as a remedy for diarrhœa.

FLUID EXTRACT DAMIANA.

Reputed to be efficacious in debility of the sexual organs of both sexes caused by abuse, or consequent on old age. For Gelatine-Coated Pills, see page 75.

FLUID EXTRACT ERGOT.

McKESSON & ROBBINS' Fluid Extract Ergot has been thoroughly tried and has given unequalled satisfaction. The fresh drug is carefully selected, and the method of preparation insures uniformity and reliability. One minim of the Fluid Extract represents one grain of Ergot. McKESSON & ROBBINS' Ergotin is reliable and uniform, and in the form of their Gelatine-Coated Pills, has come into very general use; see page 75. Purified Ergotin, specially prepared for hypodermic use, is also offered; see page 62.

FLUID EXTRACT EUCALYPTUS GLOBULUS.

Antiperiodic, and, unlike quinine, it is claimed that it may be given during the febrile paroxysm with ameliorating effects. Also, Gelatine-Coated Pills of the Solid Extract; see page 79.

FLUID EXTRACT EVENING PRIMROSE.

Useful in eruptions, especially in tetter. Recommended in asthma, whooping-cough, &c.

FLUID EXTRACT FUCUS VESICULOSUS.

Has been proved of efficacy in decreasing excessive obesity, when given for some time.

FLUID EXTRACT GELSEMIUM.

As many practitioners have expressed a desire for the Fluid Extract made from the fresh root, we have it gathered for us. For price, see page 67. It has been used in intermittent fever; see note, page 75.

FLUID EXTRACT GRINDELIA ROBUSTA.

This plant is a native of California, and has been used successfully as an antidote to Rhus poisoning, and has afforded much relief in hay fever and all asthmatic difficulties. It has also been recommended in catarrh of the urinary organs; see note page 75.

FLUID EXTRACT GUARANA, [Paullinia sorbilis].

Is claimed a specific in sick, nervous, and sun headache, valuable in neuralgia and affections of the mucous membrane, and recommended in diarrhœa, dysentery, and kindred diseases. We offer, also, Elixir, and Gelatine-Coated Pills; see pages 63 and 76.

FLUID EXTRACT JABORANDI.

A powerful diaphoretic and sialagogue, valuable in rheumatism and syphilitic troubles of long standing. We offer Gelatine-Coated Pills; see page 77.

FLUID EXTRACT JAMAICA DOGWOOD.

FLUID EXTRACT MISTLETOE, [Viscum Album].

Has been recommended as a substitute for Ergot, to which it is said to be superior in causing natural (intermittent) contractions.

FLUID EXTRACT QUEBRACHO BARK.

FLUID EXTRACT MOUNTAIN BALM.

A plant native of California. Recommended in bronchitis, pneumonia, chronic colds, and said to be efficacious in diseases of the kidneys and bladder.

FLUID EXTRACT SANDAL WOOD.

Now largely used in gonorrhœa. For Gelatine-Coated Pills of the Solid Extract see page 80.

FLUID EXTRACT SUMBUL.

A nervous stimulant. Recommended in gastric spasms, hysteria, chlorosis, amenorrhœa, dysmenorrhœa, palsy of the limbs, epilepsy, and other nervous disorders. Used in Russia in low fevers of a typhus character, and in asthmatic cases of dysentery and diarrhœa.

FLUID EXTRACT SUNDEW [Drosera].

Useful in affections of the chest.

FLUID EXTRACT USTILAGO MAIDIS [Corn Fungus].

Sometimes called Corn Ergot, and is recommended as a substitute for Ergot of Rye.

FLUID EXTRACT XANTHEUM SPINOSUM.

Claimed to be of value in hydrophobia.

GOODS BY MAIL.

We have had much trouble during the past year on account of packages sent to us and ordered from us by mail, and would once more caution our customers that the laws are very strict.

All packages, containing POWDERS, or GLASS, except when enclosed in mailing-tins, PAY LETTER POSTAGE OF SIX CENTS AN OUNCE. All sealed packages must be prepaid, six cents an ounce. Packages which can be opened for examination, and which do NOT contain Powders, Glass, or Written Matter can be sent by mail at one cent an ounce.

NOTE.—If the article is not fully prepaid, DOUBLE the balance of postage is charged, when the package is received from the mails, which must in turn be charged to the sender.

ALWAYS HAVE PRINTED ADDRESS ON every package sent us by mail or express.

GOODS ORDERED BY MAIL ARE SENT AT THE RISK OF CUSTOMERS.

PACKING BOXES AND CARTAGE FREE.

A variety of causes have for some years been operating to change the manner of distributing drugs throughout the country; whereas formerly large purchases were made every Spring and Fall, customers are now buying in smaller quantities at frequent intervals, and the extra charges for packing boxes and cartage have lately appeared a greater tax than before.

The practice of discriminating, in this respect, in favor of certain customers, which has become more or less general in the trade, is not according to good principles, and we propose to make no charge for packing boxes and cartage, FOR ASSORTED GOODS, to customers sending orders; at the same time our prices will always be as low as quantities ordered and quality will allow. This will not apply to 25 and 50 lb. packages for which it is the custom of the trade to charge, patent cans and cases, kegs and half barrels, barrels for Chalk, Whiting, cases and barrels for Glassware, when such charges are made by manufacturers, &c., nor to orders sold through Brokers.

Trusting that your orders with us will be largely increased, we remain,

Very respectfully yours,

THE FRIGID SODA APPARATUS.

THE FRIGID SODA AND MINERAL WATER APPARATUS,

by long experience and the strongest working tests, has proved itself the best dispensing Apparatus adapted to a large business and successful trade. All Apparatus manufactured by us are fitted with our **Patent Solid Block Tin Cooler**, made wet and dry, from which the coldest and purest beverages are drawn. All our couplings and connections are made of block tin, thus preventing any possibility of contamination, and rendering the Apparatus more durable. Special attention is called to the advantages of our

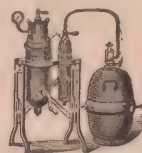

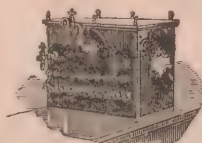

MINERAL ARC.

Nothing has ever been offered to the trade that so fully answers the purpose for which it is intended as this novel and beautiful device. The great demand for it, and the expressions of admiration from all sections of the country, are ample evidence of its value to the dealer.

MANUFACTURERS OF

PLASTERS IN RUBBER COMBINATION.

WE OFFER TO THE TRADE A COMPLETE LINE OF PLASTERS, OF WHICH WE ARE THE SOLE MANUFACTURERS AND PROPRIETORS, CONFIDENT IN THE BELIEF THAT THEY ARE SOLD AT PRICES AS LOW AS THE HIGH STANDARD OF EXCELLENCE WHICH HAS WON FOR THEM POPULARITY AND PROFESSIONAL ENDORSEMENT IN THE PAST, WILL ADMIT OF.

BY A PROCESS OF OUR OWN
we combine the medicinal ingredients of our Plasters with PURIFIED RUBBER, without the use of solvents, a fact which we have made known in our advertisements during the last ten years. The process, original with us, other manufacturers are endeavoring to discover, and are publishing bombastic claims to be its inventors. Such claims, it is scarcely necessary to state, are wholly without foundation.

NEITHER TIME NOR CLIMATE lessens the efficacy of our Plasters, and we are justified in saying that they produce effects fully commensurate with every allegation made in their behalf. Their remedial constituents are chemically combined in harmonious proportion, and no conflicting or impure elements enter into their composition, a fact demonstrated both by analysis and use.

SPECIAL PRODUCTS.

BELLANODYNE PLASTER,

In which are combined the properties of our Belladonna and Capsicin Plasters, and the use of which we think cannot fail to win authoritative professional sanction.

CAPSICIN PLASTER,

Much cheaper and far superior to any plaster of a similar name.

American Surgeons' Adhesive Plaster,

The most perfect adhesive plaster ever produced.

Porous Strengthening Plaster,

MUSTARD PLASTER.

Improved Belladonna Plaster,

This Plaster is prepared from the alcoholic extract of Belladonna, manufactured at our laboratory, under the direct supervision of PROF. GEORGE F. H. MARKOE, who brings to his task a profound knowledge of chemistry and its application to pharmaceutical processes. With the medicinal ingredients is combined washed and purified rubber, and the best material and most improved mechanical means are used in making it.

HUSBAND'S CALCINED MAGNESIA.

FIRST PREMIUM SILVER MEDALS

Awarded by the Franklin Institute, Philadelphia; by the Mechanic's Association, Boston; by the American Institute, New York; and by the Maryland Institute.

In the report of the Twentieth Exhibition of American Manufactures, by the Franklin Institute, Pa., it is stated that

HUSBAND'S MAGNESIA

—IS—

"Believed to be the best in the United States."

Its superior qualities consist in its being entirely deprived of carbonic acid, in its freedom from unpleasant taste, smell, or other disagreeable property, and without roughness or grittiness to the touch or palate. One teaspoonful of it is equal in strength to three or four teaspoonfuls of the common Calcined Magnesia; thus combining smallness of dose with the most agreeable form in which Magnesia can be administered.

ISINGLASS ADHESIVE PLASTER.

This Plaster has been found to be admirably adapted to strapping after surgical operations, and as a dressing to either incised or lacerated wounds. It is cleanly, of easy application, adheres firmly *without producing inflammation*, and being semi-transparent, allows an examination of the parts without their having to be disturbed by its removal until, in many instances, the cure is effected. This Plaster is not affected by age, and will bear exposure to any climate.

Professor Mutter, in his late edition of Professor Liston's Lectures on Surgery, etc., remarks that "The Isinglass Plaster referred to by Mr. Liston is exceedingly well made by Mr. Husband of this city; and, for some time past, I have almost abandoned the use of the old Adhesive Plaster of the shops, which often, in persons of delicate skin, or children, produces troublesome irritation."

The following testimonials from some of the most distinguished surgeons in the United States will show the estimation in which it is held by the profession.

"I consider the Isinglass Plasters prepared by Mr. Husband a very valuable article for many surgical purposes, and think it ought to be introduced into general practice."

W. GIBSON, M.D.,

Late Professor of Surgery, etc., in the University of Pennsylvania.

"I have used the Isinglass Plaster prepared by Mr. T. J. Husband, and find it an excellent article. It is, therefore, with much pleasure that I recommend it to the profession."

THOMAS D. MUTTER,

Late Professor of Surgery, etc., in Jefferson Medical College.

Please Note the following Changes in our Method
of Selling our

MALTINE PREPARATIONS.

NEW YORK, December 1, 1882.

On and after this date the prices of our Maltine Preparations, in assorted lots of \$100.00 and upwards will be as follows :

	Pints, per Doz.	5 Pt. Bts., ea.
MALTINE (Plain)	\$7 50	\$2 75
MALTINE with Hops	7 50	2 75
MALTINE with Alternatives	10 00	3 50
MALTINE with Beef and Iron	10 00	3 50
MALTINE with Cod Liver Oil	7 50	2 75
MALTINE with Cod Liver Oil and Pancreatine	7 50	2 75
MALTINE with Hypophosphites	10 00	3 50
MALTINE with Phosphorus Comp	10 00	3 50
MALTINE with Peptones	12 00	4 50
MALTINE with Pepsine and Pancreatine	10 00	3 50
MALTINE with Phosphates	7 50	2 75
MALTINE with Phosphates Iron and Quinia	12 00	4 50
MALTINE with Phosphates Iron, Quinia, and Strychnia	12 00	4 50
MALTINE Ferrated	7 50	2 75
MALTINE WINE	7 50	2 75
MALTINE WINE with Pepsin and Pancreatine	10 00	3 50
MALTO-YERBINE	7 50	2 75
MALTO-VIBURNIN	10 00	3 50

Time of payment will not exceed 30 days. A discount of 10 per cent. from above prices will be allowed to those who contract with us not to sell our MALTINE preparations below the above list prices, and also an additional discount of one per cent. for prompt cash on receipt of invoice. No better prices will be allowed for larger quantities.

We do not become responsible for delivery of goods, and make all shipments at risk of purchaser. We agree to deliver free on board in Yonkers, N. Y., or in New York City, and pay freight to your city, over lines of our own selection, deducting same from invoice at time of shipment. We shall, however, exercise due care in selecting such lines as will best suit our mutual interests, and the safe and speedy transportation of your goods.

You will notice by the enclosed form of contract that the jobber who purchases \$100 worth of MALTINE at one time, is at liberty to sell to the small jobber not less than \$25 worth of MALTINE, assorted, at a discount of five per cent. from the above prices.

We recognize the fact that our list of MALTINE Preparations is large, and also that in some localities the demand for a few of the combinations is limited, and for this reason we wish to offer the trade everywhere *absolute* security against the possibility of loss, should any of these slower-selling products accumulate. After a little experience it will not be difficult to determine upon the kinds of MALTINE that are generally demanded in your market, and therefore you can easily assort the \$100 lot; still we shall esteem it a favor if you will order a *few of each* of our MALTINE Preparations, in order to be able to supply promptly the growing demand for them.

In order that you may feel perfectly secure in doing this, we hereby agree to re-lieve you once every three months of any MALTINE that you have accumulated that you may consider slow stock, and place in your hands the same amount of value in MALTINE that is salable, we paying transportation both ways. Thus it will be seen you take no risk, and accumulate no unsalable stock.

We will furnish the five pint bottles, when required, at ten per cent. off, freight paid, in any quantity.

This plan has been adopted to secure to the trade a fair profit, and we trust it will meet with your approval and co-operation.

Thanking you for liberal patronage in the past, and soliciting a continuance of your valuable favors, we remain,

Yours, very respectfully,

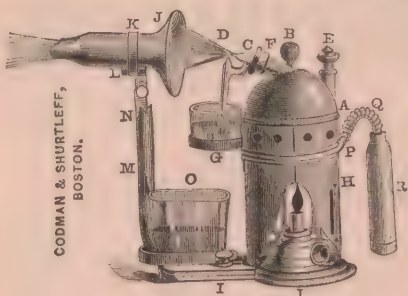

THE MALTINE MANUFACTURING CO.,

NATRONA BICARB. SODA.

“THE BEST IN THE WORLD.”

(ABSOLUTELY PURE.)

The nature of the raw material from which NATRONA BICARBONATE OF SODA is made—viz., cryolite, a mineral containing *pure sodium*—ensures a purity and uniformity of product which cannot be obtained from any other known material. In making Bicarb. Soda from any other raw material, the use of sulphuric acid is a necessity, but none is used in any part of the process of making NATRONA BICARB.; hence its entire freedom from the slightest trace of arsenic, which is always present in ordinary soda. Its absolute purity and entire freedom from all traces of *sulphate of soda*, common salt, and other impurities, render NATRONA BICARB. NEARLY TASTELESS, and being bolted through the finest bolt-cloth ensures the finest state of division.

To these indisputable facts the attention of CONSUMERS of soda is especially called. They are IMPORTANT, and should influence both those who use and those who sell soda to buy and sell NONE BUT THE BEST.

The NATRONA Bicarb. Soda having supplanted the English Bicarb. in the American market, is kept in stock by almost every wholesale druggist and grocer throughout the United States, of whom it may be ordered.

NATRONA BICARB. SODA is unequalled by any other brand of ENGLISH or AMERICAN manufacture.

SHAMELESS IMITATORS.

The attention of the trade is directed to the fact that several of our articles have been imitated by unprincipled individuals. We did not complain when they copied our Price Current matter, literature, type, descriptions of our goods for their own, style of dressing, packages, paper, boxes, symbols, and even our business methods, on the ground that it represented progress, and was a great improvement over their own work and ability.

While we sensibly feel great pleasure at being able to furnish brains for our various competitors, and can to a certain extent pardon plagiarism in irresponsible and brainless persons, yet we cannot remain passive when our trade-marks are counterfeited and violated. The style and general appearance of the labels, wrappers, and packages complained of are liable colorable imitations. Their external appearances are calculated to deceive innocent purchasers, while the goods are transparently inferior in quality and materials. To the credit of pharmacists, wholesale dealers, and druggists generally throughout the United States be it said that, as a class, commercial piracy or illegal infringements of trade-marks have been both discouraged and unceremoniously condemned.

Honorable competition is wholesome, necessary, legitimate, and desirable; but we cannot compete with firms or individuals who are not only without character, but who exhibit in their manufactures a wanton disregard of the first principles of true pharmacy. We have examined several specimens said to contain certain incorporated medicinal extracts; the only place such extracts were discovered was on the printed label.

We have invariably furnished unimpeachable pharmacopœia articles made with the greatest care; in their honest preparation is involved the reputation of the medical practitioner and dispensing pharmacist. We have frequently stated (and we comprehend fully the gravity of the statement), and reiterate it, **that we make the most reliable, best, and neatest goods in the market at lower rates than can possibly be furnished by other manufacturers.**

Our Medicinal India-rubber Porous and Spread Plasters will remain an unlimited time in perfect condition, and are invariably guaranteed to remain so until sold. This cannot be said of goods offered in competition. When you compare our prices for thoroughly reliable goods with inferior and unstable makes, where the dealer is compelled from time to time to suffer from spoilage, and be subjected to annoyances, dissatisfaction, and exchanges, you will quickly discover that inferior goods at a trifle lower rates are decidedly more expensive than reliable goods at our prices: on one side you save time, expense, and your customers; while on the other side you sacrifice all three.

Very Truly Yours,

SEABURY & JOHNSON,

No. 21 Platt Street, New York.

GOODS SOLD TO THE TRADE ONLY. SEND FOR TRADE PRICE LISTS.

Put up in 1, 5, 25, 50, and 100-lb. cans. Samples furnished on application. The post-office laws forbid anything of an oleaginous nature being sent through the mail.

In chemical composition Cosmoline (Unguentum Petrolei) is an oleaginous hydrocarbon, corresponding to the heavy petroleum oils, and containing a large amount of the paraffines and olefines of the formulae $C_{16}H_{34}$ and $C_{16}H_{32}$. It contains but a small percentage of the paraffines and olefines corresponding to the formulae C_7H_{16} and C_7H_{14} , respectively, and the offensive and irritating properties of the crude oil have been carefully removed. In the process of purification, no acids, alkalies, or other chemicals are employed, and no injurious additions of any kind are made to the natural product. The result is a semi-solid, translucent substance, with a faint odor and unctuous feel.

Cosmoline (Unguentum Petrolei) melts at about 100° Fah. (38° Cent.,) and boils at about 625° Fah. (329° Cent.,) its specific gravity is about 0.875 at 60° Fah.

As it contains no oxidizable or organic matter capable of change by putrefaction or fermentation, and is absolutely without affinity for moisture, it offers to the profession an admirable unguent, which can never decompose, ferment or become rancid in any climate or temperature.

PHILADELPHIA, July 10, 1880.

MESSEURS. E. F. HOUGHTON & Co.: I have for a number of years made extensive use of Cosmoline (Unguentum Petrolei), and consider it a most valuable article for surgical purposes. Either as a dressing by itself, or as a vehicle for the application of medicaments, it is greatly superior to lard or other fatty matters, especially by reason of its non-liability to change by time or temperature.

Yours truly,

JOHN H. PACKARD, M.D.

1031 WALNUT STREET, PHILADELPHIA.

MESSEURS. E. F. HOUGHTON & Co.: I have used extensively Cosmoline (Unguentum Petrolei) both in Dispensary and private practice, with very great satisfaction. As a vehicle in making ointments it is invaluable, and far superior to lard, for the reason that it will not become rancid or undergo chemical change like the latter, when exposed to the atmosphere. I cannot too highly commend it as an application in various skin diseases.

Yours truly,

JOHN V. SHOEMAKER, A.M., M.D.

Physician to the Pennsylvania Free Dispensary for Skin Disease.

208 WEST 34TH STREET, NEW YORK.

MESSEURS. E. F. HOUGHTON & Co.—Gents: I fully appreciate the value of your Cosmoline, or Unguentum Petrolei, and prescribe it frequently in ointments. Fluid Cosmoline I have used constantly for several years, as a lubricant of urethral sounds. It is the cleanest oil I know of for this purpose.

Yours truly,

GEO. HENRY FOX.

The Peerless Nurser, with Double Valve.

TRADE MARK REGISTERED MARCH 31, 1878.

The shape, purity of materials, the ease and comfort to the child while nursing, the facility with which it can be cleaned, the impossibility of getting out of order, in connection with the use of the DOUBLE VALVE, render the Nurser superior to any other Nursing Bottle ever produced.

The Nurser is put up in four different styles, Nos. 1, 2, 3 and 4, very neat and attractive, and at prices not higher than those of ordinary Nursing Bottles.

Absorbent (Proprietary) . . .	89	Ammoniated Iron	32	Atropine	12
Abstracts, U. S.	61	Ammoniated Mercury	37	Atropine	12
Acacia Flowers	25	Ammonio-Ferric Alum	10	August Flower	89
Acacia Gum	27	Ammonium	10, 11	Aureoline	89
Acetal	7	Amorphous Hyoscyamine . . .	31	Ava Kava Root	47
Acetate of Aluminium	10	Ampelopsin	11	Avens Root	47, 106
Acetate of Ammonium	10	Amycos	89	Axle Grease	94
Acetate of Amyl	11	Amygdalin	11	Babbitt's Potash	44
Acetate of Barium	13	Amyl	11	Bael Fruit	13
Acetate of Calcium	17	Amylen	11	Balms (Proprietary)	89
Acetate of Cobalt	20	Anæsthetic Ether	22	Balm of Gilead Buds	16
Acetate of Copper	20	Anacardina	11	Balm Mint	30
Acetate of Iron	31	Anakesis	89	Balsam	13, 62, 89
Acetate of Lead	34	Analysis Quinine Pills	60	Balsam Canada	13
Acetate of Lime (Calcium) . .	17	Anchusa Root	47	Balsam Copaiba	13
Acetate of Magnesium	36	Anethum Seed	52	Balsam Copaiba, Solid	13
Acetate of Manganese	37	Angelica Root	47	Balsam Fir	13
Acetate of Mercury	37	Angelica Seed	53	Balsam Gurjun	13
Acetate of Methyl	38	Angostura Bark	13	Balsam, Nervine	62
Acetate of Morphine	38	Aniline	11	Balsam, Peru	13
Acetate of Potassium	46	Aniline Family Dyes	62	Balsam, Riga	13, 62
Acetate of Quinine	46	Anine	28	Balsam Sulphur	13, 62
Acetate of Silver	53	Anise Seed	52	Balsam Tolu	13
Acetate of Sodium	54	Anisette	89	Balsam, Tranquille	13, 62
Acetate of Strontium	56	Anatto	12	Bandoline	89
Acetate of Strychnine	56	Annatoline	12	Banberry	106
Acetate of Uranium	57	Anatto Seed	89	Banisher	13
Acetate of Zinc	61	Anthrillator (Proprietary) . . .	89	Baptisin	90
Acetic Acid	7, 61	Anodyne	12, 89	Barbadoes Aloes	28
Acetic Ether	22	Anthracene	12	Barbadoes Tar	56
Acetol (Proprietary)	7	Anthrakokali	89	Barberry Bark	13
Aceton	7	Antidote (Proprietary)	89	Barium	108
Acid Phosphates	89	Anti-Fat	89	Barks	13, 14, 15, 106, 107, 108
Acids	7, 8, 9, 61	Antimony	45	Barley	15, 90
Acids (Proprietary)	89	Antimonate of Potassium . . .	89	Barosmin	90
Aconite	34, 106	Apient (Proprietary)	12	Bar Wood	58
Aconite Leaf	47, 106	Apocynin	12	Baryta	15
Aconitin	9	Apocynum Cannabinum	47, 106	Barytes (Barium, Sulphate) .	13
Acorn Coffee	20	Apomorphine	89	Basswood Bark	13, 106
Æsculin	9	Aproro	89	Bath Brick	16
Æthyliden, Chloride	9	Aqua Ammonia	10	Baths, Penne's	90
African Ginger	43	Aqua Fortis	7	Battery, Boyd's	90
Agaric	10	Arabinat Quinine	46	Baume Tranquille	13, 62

McKESSON & ROBBINS,

OFFICE AND SALESROOMS:

91 and 93 Fulton Street, - New York.

P R E F A C E .

WE take pleasure in presenting herewith our revised and enlarged Prices Current of Fancy Goods, Druggists' Sundries, Sponges, Surgical Instruments, etc., and the key to our Illustrated Catalogue.

For the convenience of our customers we have divided the work into two parts—the first comprising Fancy Goods, Druggists' Sundries, Chamois, Sponges, etc., has been carefully arranged in alphabetical order, thereby facilitating the finding of articles and almost precluding the necessity of an index; while the second part, comprising Surgical Instruments and Appliances, has been arranged to conform with our Illustrated Catalogue, in accordance with the different operations and uses for which they are required. The numbers in brackets, in the Surgical Instrument matter, refer to the illustrations of the articles as numbered in the Illustrated Catalogue.

This Price List, covers more than three times the space of any previous issue including the illustrations, and is the most complete work of the kind ever published.

In regard to our Illustrated Catalogue we wish to say, that owing to the great expense involved in the illustrations, and the labor attendant upon the classification of Fancy Goods, Sundries, and Surgical Instruments, we have deemed it advisable to have the initials "McK. & R." engraved upon all illustrations, in order to identify them specially as our own, and still further to prevent, as far as possible, having them copied and used by other houses, which has been done with our previous Prices Currents. It will, of course, be understood that these initials do not appear on the goods.

Our object in issuing a book of Illustrations separately from the Prices Current, is to enable the dealer to show it freely to his customers, without fear of exposing the prices he may pay for his merchandise; and we would especially recommend all parties receiving our Illustrated Catalogue to place the same in a conspicuous place for the benefit of their trade, and thereby lead to an increased sale of many articles, as also to the sale of many goods not kept in stock, but which can be ordered when sold, to mutual advantage. We have had all the Illustrations made either a full or a relative size of the original article from which it was taken; and we believe this will greatly assist dealers in making selections, as an accurate idea of the size of each article is given.

Boxes and Cartage Free.—We make as a rule no charge for boxes and cartage for assorted goods: at the same time our prices will always be as low as quantities ordered and quality will allow. This rule, however, will not apply to packages for which it is the custom of manufacturers to charge, such as barrels, boxes, etc., on glassware.

Terms.—Prices will be subject to future market fluctuations. Assorted invoices will be sold payable within 30 days, in New York; or interest will be charged at 6% per annum after 30 days; and drafts will be made payable at 60 days from date of shipment, unless otherwise arranged. A discount of 1% for cash will be allowed whenever remittances accompany orders. Special orders for goods not embraced in our Prices Current will be filled at manufacturers prices, and carefully selected; goods purchased on such orders cannot be returned. We particularly request our customers, however, who may return any goods, to send invoice for same, stating conveyance, etc., as we cannot allow for "returns" until such has been received; and it should be understood that we cannot be responsible for any loss or damage to articles sent by mail.

Correspondents may rely upon the prompt execution of their orders, as it is well known that we carry in stock the largest and most complete assortment in the trade.

Very respectfully,

McKESSON & ROBBINS.

NEW YORK, MARCH, 1883.

NOTE.—The Cuts of Tooth Brushes on page 57 of our Illustrated Catalogue, represent some of our leading English patterns, besides which we have many others, too numerous to describe. We make a specialty of importing English Tooth Brushes, with the Customer's name stamped on the handles, in quantities of two gross and upwards. To parties ordering the above quantity we will make a liberal discount from the dozen price. All of our English Tooth Brushes are waxed-back, wire-fastened, and warranted to be London made, comprising both bleached and unbleached bristles, goat and badger hair. We would also call attention to our line of second, third and fourth quality of which we have an extensive assortment, and offer at very low prices.		
REMARK.—If our customers, in ordering Tooth Brushes, would designate cut of bristles, and whether soft, medium, or hard texture is desired, it will assist us in the selection of same.

No. 12 contains 24 long case vials, in two rows, similar in style to No. 4, with lower half of case the same as upper; vials secured by polished nickel-plated shields. Capacity same as in No. 11. Size, 6¾ inches x 3½ inches x 1½ inches.....		each	4 50	

CASES, Continued:

VIAL, McKesson & Robbins':

No. 13. Same as No. 12, only the bottles are shorter. Size, 7 inches x 2½ inches x 1½ inches; contains 24 short vials, secured by neat, polished nickel-plated shields. Desirable where a narrow case is needed. Capacity, 75 Granules; 17 one-grain; 6 two-grain, or 4 five-grain Pills.			each	4	25
No. 14. This case has been very favorably received by many members of the profession. It is well made, of fine black Morocco, lined with red, with soft leather at the edges to fit it to the breast pocket of the overcoat. It contains two receptacles for memoranda and powders, and 24 heavy, flint-glass vials, as follows: 10 one-drachm, holding 65 Granules; 8 two-drachm, holding 38 one-grain Pills; and 6 three-drachm, holding 27 two-grain Pills. Size of case, 9 inches long, 4¾ inches wide and 1 inch thick.			each	4	50
No. 15. Same style as No. 11, but only 8 vials. This case is a little gem, resembling a jewelry case, 4¾ inches long, 3 inches wide and 1¼ inches thick. Space is left in the cover for one of McK. & R.'s Formula Books, which is furnished with each case.			each	1	50
No. 16. Pocketbook form, Morocco leather. Size, 4¾ x 2¾ inches, ½ inch thick; contains 8 one-drachm vials.			each	75	1 00
No. 17. Pocketbook form, Morocco leather. Size, 6¾ x 4¼ inches, ¾ inch thick; contains 10 one-drachm vials; with pocket.			each	3 00	3 50

NOTE.—We first put these cases, for Pills and Granules, on the market at the request of physicians, and we are happy to say that they have been received with much favor. The number and variety of the formulas of our Pills, together with their ready solubility, have, to a great extent, obviated the necessity of carrying the bulky medicine chest, with its solutions and powders. The cuts here exhibited give a general view of the style of the cases; they are very compact and meant to be carried in the pocket; are of WOOD, HINGED, WITH CLASP; COVERED WITH FINE BLACK MOROCCO AND LINED WITH PURPLE VELVET except No. 14, 16 and 17, which differ from the others in style. To give a better idea of the capacity of the Vials, we append the number of one-eight grain Morphia, and one and two-grain Quinine Pills, which they will contain; the Cases Nos. 4, 13 and 14 are the only ones which have vials large enough to admit of four or five-grain Pills. The prices here given include the empty vials; should they be desired filled with Pills, not procurable at druggists' at home, the Pills will be charged at list prices.

NOTE.—This Ink is a *triple* extract of *Ink Basis*, made from Gall Nuts and Salts of Iron, and purified by a new chemical process, expressly for use in Stylographic Pens, and from which it flows in a rich deep bluish green line that soon turns into a *permanent* velvet black. Its copying qualities are so excellent that clear distinct copies can be had by the weight of the person in lieu of a press, making it invaluable to commercial travelers and business men away from office conveniences.

DIRECTIONS.—Fill the small pipette up to the mark with the urine to be tested. This will measure exactly 5 cubic centimetres; let it flow down the bulb tube, then pour in water until it rises to the top of the constriction. Put in the long stopper, having seen that no air is below it. Fill up the tube with the hypo-bromite solution, and fix the tube in the rubber holder attached to the trough; then pour in water till the trough is half full; fill the measuring tube with water and invert it in the trough; pull up the stopper and slip the measuring tube over the bulb tube; warm the bulb till it feels hot; if 5cc. of urine gives off more nitrogen than fills the tube to figure 3, dilute the urine with an equal volume of water and take 5cc. of the dilution, read off and multiply by 2. If the urine contains albumen, heat it with 2 or 3 drops of acetic acid, filter, and take 5cc. of the filtrate.

HYP0-BROMOUS SOLUTION.—Dissolve 100 grammes (3½ ozs.) of solid caustic soda in 250cc. (9 ozs.) of water; when cold, add 25cc. (7 drachms) of bromine. This solution keeps badly; it is best prepared in the following manner: Dissolve the caustic soda in the water. This solution may be made in large quantities, for it will keep good almost any length of time; of this solution take a part, and add the bromine in the proper proportion when it is required for use.

FEVER THERMOMETERS.

The Clinical Thermometer has within a comparatively few years become one of the most important of instruments for diagnosis. Nearly every physician feels the importance of having and using such an instrument.

While many improvements have been made from time to time in form and finish, until very recently no adequate consideration has been given to the importance of tested accuracy in these instruments.

This fact renders uncertain and unreliable nearly all medical thermometrical record.

The present uncertainty concerning thermometers is concisely stated by Dr. Leonard Waldo in his "Report to the Board of Managers of the Winchester Observatory":

"There have been comparatively but few physicians' thermometers made in this country which have united accurate graduation of the scale with the requisite age of tube necessary to preclude further sensible changes, and there is little doubt that the *great majority* of physicians' thermometers now in use in the United States are from one-half to two degrees too high in their indications."

We may fairly claim that the only exceptions to this deplorable condition are those Thermometers of our make which are marked *S* upon the tube, and certain grades—difficult to identify—made by Cassella, London.

All authorities urge the necessity of *seasoning* or *ageing* the tubes of thermometers before they are finished by graduating the scale. The length of time needed to so season a thermometer as to preclude considerable change of its reading is not yet definitely determined. It is safe to say that the older a thermometer tube is before graduation the less the amount of change. Thermometers one year aged are being sold as seasoned thermometers. They are far more valuable than those of unknown or less age, but it is certain that with the material in general use one year's ageing *does not* preclude the possibility of further and considerable change. From our experience it is not safe to call a thermometer tube under three years' age a seasoned tube.

The question of *age* is the *all-important* question in buying or using a thermometer.

We will furnish our certificate of age with all thermometers over one year old, and Yale College Certificate of Variation whenever desired. These Certificates of Variation indicate the actual standing of the thermometer at date, but—

Those with thermometers of unstated age can be depended upon only a few months.

Those with thermometers of one year age may be only a few tenths of a degree wrong at the end of a year.

FEVER THERMOMETERS, Continued.

Those with thermometers of three years' age can be depended upon for a period of years.

For the convenience of the profession we append a list of the different grades of Thermometers now manufactured for us. *Guaranteeing* not as irresponsible makers do, "all grades absolutely correct," but "each Thermometer just as represented in certificate accompanying it."

DESCRIPTION.

Thermometer, 6 inch, contracted stem; graduated in 5th; three years old or over; each instrument having Yale College Certificate of Variation and a Certificate of Age.....	each	5 00
" 5 inch, same as above.....	[4950] each	6 00
" 4 " " ".....	each	6 00
" 5 " same as above, but non-contracted stem.....	each	4 00

The degree of accuracy is the same; but, as the bore of the tube is straight, care must be exercised in adjusting the index to avoid shaking it into the bulb.

Thermometer, 6 inch, same as above.....	each	3 50
" 5 " contracted stem; graduated in 5ths; one year old, with Certificates of Variation and Age.....	each	4 00
" 4 inch, same as above.....	each	4 00
" 5 inch contracted stem; graduated to 5ths; not over six months old, with Certificate of Variation.....	each	3 00
" 4 inch, same as above.....	each	3 00
" 5 " lens front; contracted stem; graduated to 5ths, with Certificate of Variation.....	[4951] each	4 00
" 4 inch, same as above.....	each	4 00
" 3½ inch lens front; contracted stem; graduated to 5ths; one year old, with Certificates of Variation and Age.....	each	4 50

This is excelled only by our Fully Seasoned Thermometers. Where difficulty is found in discerning the index, this is the best article that can be found.

Thermometer, 5 inch contracted stem; graduated to 5ths, with Certificate of Variation.....	each	4 50
--	------	------

A very handsome instrument, with red filled scale. Made with the Improved Oval Bore and Indestructible Index. No air speck, but index formed each time used by the sudden sharp constriction above the bulb.

Thermometer, 4 inch, same as above.....	each	4 50
" The "Tablet" Thermometer, with Certificate of Variation.....	each	4 50

A flat stem Thermometer, with all the latest improvements, including the very latest device to prevent rolling when laid down. This is the best of unseasoned Thermometers.

We offer also the following, usually sold without Certificates:

Thermometer, spiral stem, 4 or 5 inch; graduated to 5ths.....	4 50
" contracted stem, 4 or 5 inch; graduated to 5ths. Class D.....	each 2 50
" " " " " 4ths of a degree. Class	
C, self-registering.....	each 1 50
" bent or syphon.....	each 3 00
" lens front, 4 or 5 inch long.....	each 3 50
" non-contracting stem— non-registering.....	each 1 25
" pencil case sliding.....	each 5 00
" Fine English contracted stem, graduated to fifths of degrees, in lined boxwood cases, 3½, 4, 5 and 6 inches long.....	each 3 00
" Fine English contracted stem, the stem has a glass covering to retain the graduation.....	each 4 00
" Aitkin's straight and curved, in morocco covered case.....	pair 5 00

Syringe, Hypodermic, Combination, No. 16, Dr. E. Holden's.....	[4985] each	2 50
--	-------------	------

DR. E. HOLDEN'S SET:

Consists of bulbs of various capacities, and needles of varying lengths, the box containing four bulbs and four needles, and a bottle. It might be added that the direct plunge of the needle is almost painless.

Many of the profession are now using these Injectors, and give them a decided preference over the glass, metal and rubber syringes. By their use the production of abscesses will cease, unless the operator be so indifferent to the welfare of his patients as to scorn the most ordinary precaution.

ADVANTAGES.—Not liable to be out of order at a critical moment; portable, durable, cheap; may be used by the nurse or patient with safety; can be used without making the patient, nervous by preparation, being so small as to be hidden by the finger.

PHYSICAL DIAGNOSIS SET.

By Alfred L. Loomis, A. M., M. D., Professor of the Theory and Practice of Medicine in the Medical Department of the University of the City of New York.

1 Camman's Stethoscope; 1 Æsthesiometer; 1 Dynamometer; 1 Carroll's Stethometer; 1 Clinical Thermometer; 1 Urinometer; 1 Ear-Speculum; 2 Laryngeal Mirrors; 1 3¼ inch Reflector; 1 Hypodermic Syringe; 6 Test Tubes. In a neat wooden, morocco covered case, lined with red chamois. Price, 45.00.
